

CBMS Build: February 2019

PROJECT #12500

This project is replacing the current IRC/Roadmap for Diversion and making changes to the Diversion Details page in CBMS. The change will take effect with the February Build that will be implemented on February 9th, 2019.

DIVERSION DETAILS PAGE

A new required field has been added to the Diversion Details page in CBMS. Use this field to explain why a customer is receiving a Diversion instead of Basic Cash Assistance.

NEW DIVERSION FORM

Information from the new field on the Diversion Details page will carryover and appear on the new Colorado Works Diversion Individualized Plan (IP).

PRINTING FUNCTIONALITY

The new Colorado Works Diversion Individualized Plan (IP) will print instead of the current Diversion Individual Responsibility Contact (IRC).
