

# Third Party Liability

Third-Party Liability (TPL) refers to any health insurance or coverage other than that provided by the Medical Assistance (MA) programs.

Any information received from a customer regarding their insurance coverage needs to be updated appropriately in CBMS.

For Third Party Liability, or TPL, it is crucial that eligibility workers update the correct sections of CBMS with the customer's information to be sure the customer's benefits are being accurately calculated.

Why is this so important? Customer's benefits are dependent on accurate information in CBMS. If there is any information in the system that is not up to date, the customer's benefits may be delayed due to the inaccuracy. For example, a customer may not be able to fill prescriptions for medications.

# Third Party Liability

The screenshot shows the 'Case Information' page in the CBMS system. The 'Case Questions' tab is active. Under the heading 'Does anybody have / received / need', the 'Other Health Care Coverage' checkbox is checked and highlighted with a yellow box. Other options include 'Parent Needing Child Support Referral', 'Authorized Representative', 'Hardship', 'Medical Condition/Disability', and 'Sponsor'. The page also includes sections for 'Is anybody in the case' and 'Financials'.

Workers should check the Case Questions page to see if the customer has indicated that they do have Other Health Care Coverage.

If a customer indicates that their Other Health Coverage has ended, workers need to update the Health Care Coverage page by End Dating the Coverage Period.

The screenshot shows the 'Health Care Coverage' page in the CBMS system. The 'Coverage Period' section is highlighted with a yellow box, showing 'Begin Date' as 12/01/2018 and 'End Date' as 11/01/2019. The 'Employer Name' field is also visible. The page includes sections for 'Policy Holder Name', 'Coverage Applied For, Through', 'Type of Coverage', 'Deductible', 'Max Out of Pocket', 'Co-Pay', and 'Contact'.
